

JUNIOR SUSTAINABILITY CONSULTANT

Ecomatters is looking for a new colleague that wants to work in the field of sustainability! Working at Ecomatters will enable you to develop relevant experience in the field of sustainability and provides the opportunity to test your knowledge and skills, while working for interesting corporate clients and cutting-edge start-ups.

About Ecomatters

Ecomatters is a sustainability consultancy which offers services based on life cycle thinking and focuses on sustainability throughout the value chain. We support organisations in developing their sustainability strategy and setting concrete sustainability goals. Furthermore, we perform quantitative analyses evaluating the social, economic and/or environmental aspects of services and products and assist in the preparation of product claims. Besides working with our clients, we also push ourselves to have our own impact on the future by initiating our own projects on circular economy and carbon neutrality.

Do you fit this profile?

You are:

- ✓ Ambitious, capable of thinking with a commercial mindset and quantitatively driven.
- ✓ Comfortable working in a dynamic environment and in a small team.
- ✓ Self-sufficient, proactive, and able to perform different activities within a team.
- ✓ Fluent in English and have enough knowledge of Dutch to feel comfortable in a Dutch environment.

You have:

- ✓ A MSc degree in natural sciences, sustainability, chemistry, environmental assessment, technology/engineering/modeling, economics or similar.
- ✓ Sound knowledge of MS office applications (Excel, PowerPoint).
- ✓ 0-3 years of experience in performing sustainability assessments.
- ✓ **An established connection with the Netherlands (through life, work, study, etc.).**

The following items are considered an advantage:

- ✓ Experience in the fields of Life Cycle Assessment (LCA) software, energy, chemistry or climate change.
- ✓ Familiar with relevant regulations such as the Single use Plastics Directive, Waste Framework Directive, etc.

There are a number of activities you could be part of, for example:

- Performing quantitative sustainability assessment (Life Cycle Assessment, EPDs and/or Excel modelling).
- Developing presentations, reports or communication materials.
- Interacting with our customers to find solutions to their needs.

Working for Ecomatters will give you relevant skills and working experience, as well as an exciting environment in the beautiful canal city Utrecht. The remuneration is in line with market practice. The position is immediately available, but the exact starting date is open for discussion. Since we are a dynamic company, you will get individual career opportunities and possibilities to broaden your horizon.

The application process

The 1st round of interviews is scheduled on Tuesday 6th and Thursday 8th of September. Successful candidates will be invited to the 2nd round of interviews, which will be held on Tuesday the 20th and Thursday the 22nd of September. Afterwards our preferred candidate will be send a formal offer in the week of 26th of September.

If you are interested in this position, please send your CV and motivation letter before Thursday 1st of September to:
